

## **THE JOBS ACT ENACTMENT**

The Senate has definitively approved the parliamentary decree: its forthcoming on the Official Journal, expected in January 2015, is going to lead to legislative decrees' issues, implementing the ambitious parliamentary decree dispositions: first of all, the social plan reform planning a collective welfare (dispatched also to temporary employed category) related to the seniority career and safeguarding a living wage; the creation of a greater coherence in the contractual overview, by establishing the new "progressive protection labor contract" and, in this way, the passing of the term contract (the italian co. co. co); a superior woman protection in the work environment (i.e. the so-called "maternity right") and generally a greater coordination between the work scope and the family one; the last, but not the least, the control system development among companies with the Company Inspection National Agency institution.
